The Illinois Environmental Protection Agency (Illinois EPA) adopts this Identity Protection Policy pursuant to the Identity Protection Act (5 ILCS 179/1 et seq.). The Identity Protection Act requires each local and State government agency to draft, approve, and implement an Identity Protection Policy to ensure the confidentiality and integrity of Social Security numbers (SSNs) it collects, maintains, and uses. It is important to safeguard SSNs against unauthorized access because SSNs can be used to facilitate identity theft. The Identity Protection Act was passed in part to require local and State government agencies to assess their personal information collection, maintenance, and usage practices, and make necessary changes to those practices to ensure confidentiality.

**Social Security Numbers Protections Pursuant to Law**

Whenever a person is asked to provide the Illinois EPA with a SSN, the Illinois EPA shall provide that person with a statement of the purpose or purposes for which the data is being collected and will be used. The Illinois EPA shall also provide the statement of purpose upon request. A sample of such statement is attached to this Policy.

The Illinois EPA shall not:

1. Publicly post or publically display in any manner a person’s SSN. “Publicly post” or “publicly display” means to intentionally communicate or otherwise intentionally make available to the general public.
2. Print a person’s SSN on any card required for the person to access products or services provided by the Illinois EPA.
3. Require a person to transmit a SSN over the Internet, unless the connection is secure or the SSN is encrypted.
4. Print a person’s SSN on any materials that are mailed to the person, through the U.S. Postal Service, any private mail service, electronic mail, or any similar method of delivery, unless State or federal law requires the SSN to be on the document to be mailed. However, SSNs may be included in applications and forms sent by mail, including, but not limited to, any material mailed in connection with the administration of the Unemployment Insurance Act, any material mailed in connection with any tax administered by the Department of Revenue, and documents sent as part of an application or enrollment process or to establish, amend, or terminate an account, contract, or policy or to confirm the accuracy of the SSN. A SSN that is permissibly mailed will not be printed, in whole or in part, on a postcard or other mailer that does not require an envelope or be visible on an envelope without the envelope having been opened.
5. Encode or embed a SSN in or on a card or document, including, but not limited to, using a barcode, chip, magnetic strip, RFID technology, or other technology, in place of removing the SSN as required by the Identity Protection Act.

In addition, the Illinois EPA shall not:

1. Collect, use, or disclose a SSN from a person, unless:
   i. Required to do so under State or federal law, rules, or regulations, or the collection, use, or disclosure of the SSN is otherwise necessary for the performance of the Illinois EPA’s duties and responsibilities;
   ii. The need and purpose for the SSN is documented before collection of the SSN; and
   iii. The SSN collected is relevant to the documented need and purpose.
2. Require a person to use his or her SSN to access an internet website.
3. Use the SSN for any purpose other than the purpose for which it was collected.

The Illinois EPA directs that only employees who are required to use or handle information or documents that contain SSNs will have access to such information or documents. All employees who have access to SSNs in the course of performing their duties shall be trained to protect the confidentiality of such data. 2. The disclosure of SSNs pursuant to a court order, warrant, or subpoena.
