Notes:

Rated Power – Rated electricity output in megawatts (MWe) under the nominal operating conditions in the application. Output may be less in hot weather.

Abbreviations -

DLN = Dry Low NOx Burners
SCR = Selective Catalytic Reduction
WI = Water Injection Burners

R = Received
I = Issued

I* = The permit for this PSD source became effective on March 27, 2001, when the USEPA's Environmental Appeals Board (EAB) dismissed a petition for review filed by a citizens group.
RE* = The second permit for this PSD source became effective on April 30, 2003.
