MEETING NOTICE

DATE: March 11, 2014

TO: Right-to-Know Stakeholders

FROM: James Jennings, Assistant Counsel, Illinois EPA 

SUBJECT: Stakeholder Meeting on Draft Amendments to Part 1600 of Title 35 of the Illinois Administrative Code: Standards and Requirements for Potable Water Supply Well Surveys and Community Relations Activities Performed in Conjunction with Agency Notices of Threats of Contamination

Illinois EPA plans to propose amendments to Part 1600 of Title 35 of the Illinois Administrative Code ("Right-to-Know rules"). The proposed amendments primarily relate to the addition of notices required for threats of exposure from (1) offsite soil gas contamination via the inhalation exposure routes and (2) offsite groundwater contamination via the indoor inhalation exposure route.

A stakeholder meeting will be held to obtain input on the draft amendments, which are attached to this Notice. Members from each entity that was on the Illinois Pollution Control Board's service list or notice list for the Part 1600 rulemaking in 2006 have been invited to this meeting. In addition, the Illinois EPA invites each stakeholder to share this Notice with other entities that may have an interest in participating in this meeting.

The Right-to-Know stakeholder meeting will be held on April 10, 2014, at the Illinois EPA's Springfield Office, 1021 North Grand Ave. East, Sangamon Conference Room, from 1:30 p.m. to 3:30 p.m.

The North Entrance is the closest entrance near the Sangamon Conference Room. The North Entrance parking lot can be accessed from 11th St. to the east or Converse St. to the north. Additional parking is available off North Grand Ave. and a fenced lot north of the Illinois EPA. Guests are required to check in at the guard station. There will be signs inside the building directing you to the Sangamon Room where the meeting will be held.

Please submit any questions regarding the amendments in writing by **March 27, 2014** to:
