The information you provide will be incorporated into a clearinghouse exchange that will make every effort to match reusable materials with potential markets. *A unique code number will identify each listing. Company names and advertisements are not published in this directory.*

IMES will not be responsible for the determination of what may constitute a hazardous substance or create a hazardous situation. The agency will not make judgments with respect to any legal requirements, particularly for the storage, transportation, treatment or disposal of what may be defined as a hazardous substance. *It is the legal responsibility of each party to determine if a listed material is a hazardous waste or a hazardous material.* Hazardous wastes must be managed in accordance with all relevant hazardous waste regulations and laws.

When completing this form, please be as specific as possible in your description. More details help your listing attract more attention and less time will be spent screening responses looking for serious takers. The listings should describe the material, quantity and frequency of availability or necessity, its contaminants (if any) physical state, form of packing and its geographical location.

Samples of any material can not be accepted. If you have questions or need assistance with this form, please call 217-782-0450 Monday through Thursday.
