

## Region Two: Chicago Metropolitan

# Landfills Transfer Stations Compost Facilities

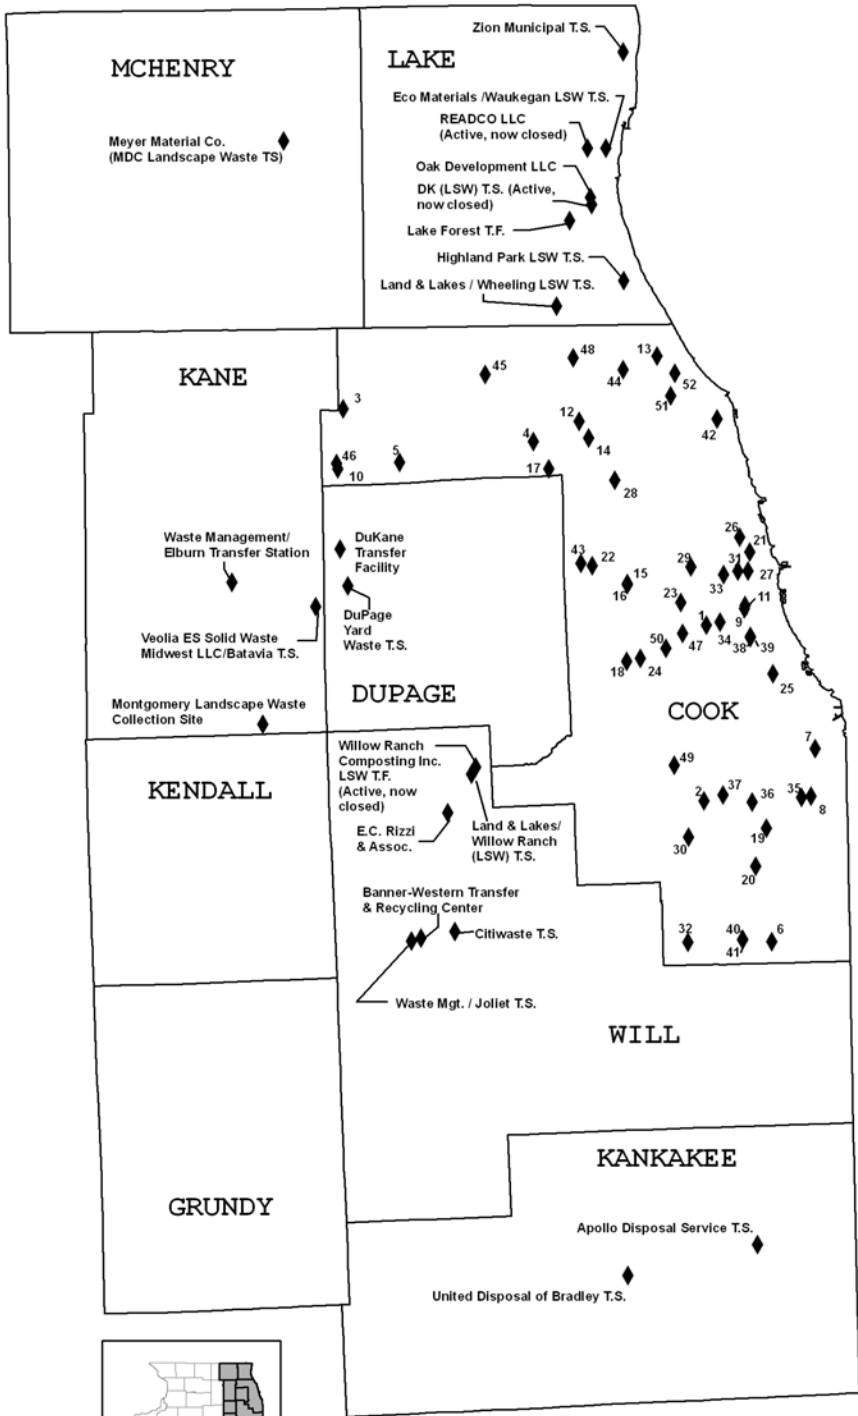

*The ticket office at Waste Management/Bluff City Transfer Facility, newly opened as of Jan. 5, 2007, has a “green” living roof. A “green roof” reduces urban run-off, and keeps the building cooler, among other environmental benefits.*

# Chicago Metropolitan Area Landfills Active in 2007

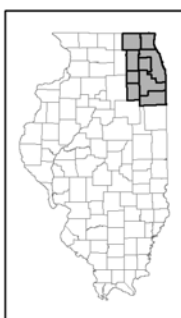

**Eight Landfills Reporting Capacity on Jan. 1, 2008**  
↑ **Landfill Capacity Increase**    ↓ **Landfill Capacity Decrease**

50. West Cook T.S.
51. Wilmette Village Yard
52. Winnetka Municipal Landscape Waste Transfer Facility

**Chicago Metropolitan Area Transfer Stations Active in 2007**

◆ 74 Transfer Stations

# Chicago Metropolitan Area Compost Facilities Active in 2007

**S** EVEN YEARS OF CAPACITY REMAIN FOR REGION 2 BASED UPON current waste disposal rates. This is the least number of years of remaining landfill life of all the regions. The others ranged between 15 and 54 years, for a state-wide average of 18 years.

On Jan. 1, 2008, the Chicago Metropolitan Region capacity was 94.6 million gate cubic yards, but had decreased 8.8 percent from the previous year. The capacity reported by landfill operators was down by 9.1 million gate cubic yards.

Prairie View Recycling and Disposal Facility (RDF), Wilmington has 61.4 percent of the capacity available locally. It is ranked sixth in the State, in terms of available capacity. However, waste is only accepted for disposal at this site from municipalities in Will County.

### Waste accepted up 6.2 percent

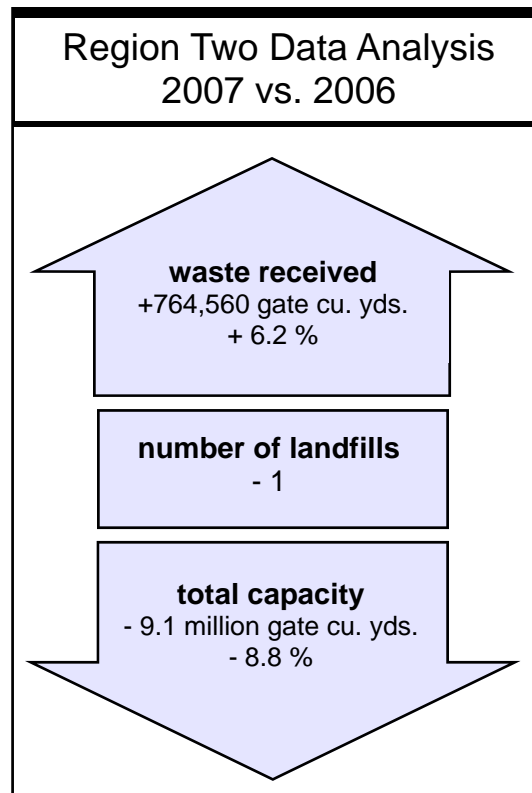

The volume of solid waste buried in 2007 in Region Two increased by 6.2 percent from the previous year. The region's landfills received more than 13.1 million gate cubic yards of waste (about four million gate tons) — which amounted to 24.4 percent of all waste landfilled in Illinois that year. That was a 764,560 gate cubic yards more than the previous year.

### Top 10 rankings for four landfills

Significantly, 30 percent (almost four million cubic yards) of waste accepted locally was deposited in one landfill: Congress Development Company, Hillside, which ranked third on the State's list. Its new operator as of June 27, 2007, planning to close the landfill in the near future accepted 3.3 million gate cubic yards more than the previous operator.

The next three most active landfills in the region Veolia ES Zion Landfill, Zion; Prairie View RDF and Countryside Landfill Inc., Grayslake, each accepted 1.8, 2.5 and 2.9 million gate cubic yards of waste for disposal in 2007. These landfills rank seventh, eighth and tenth of all landfills reporting for 2007.

Four landfills accepted waste from the States of Indiana and Wisconsin totaling less than one percent of the region's total.

### Region Two Solid Waste Statistics

Counties	9
Area (square miles)	5,109

\* Total remaining capacity divided by total waste accepted. Tells how long the region may be served by local landfills at current disposal rates, barring capacity adjustments, until capacity is depleted.

## Questions and Complaints

Illinois EPA Des Plaines field office personnel investigate reports of suspected illegal waste disposal, and inspect the region's landfills, transfer stations and compost facilities, except in **DuPage, Lake, McHenry and Will counties and the City of Chicago**, where joint responsibility has been delegated to local authorities.

Questions or complaints concerning pollution control facilities, open dumping or other incidents should be directed to the office having jurisdiction over the site:

*Continued on page R2.3*

## Three landfills open new cells

The region's newest landfill is Prairie View RDF. Phase 3 West (9.5 acres) was approved in the fall of 2006 at the landfill.

New cells also opened in 2006 in Lake County's two sites: Countryside Landfill (five acres, Subcell 5B) on May 10, 2006; and at Veolia ES Zion Landfill Site 2 Expansion—Cell 8B (12.7 acres) on Mar. 16, 2006.

## More landfill closures in Cook County expected

This region has faced several landfill closures in recent years. Kankakee Recycling & Disposal Facility (RDF), Chebanse, was certified closed on Apr. 2, 2007. Settler's Hill Recycling & Disposal Facility (RDF), Batavia, also certified closed on Apr. 4, 2008.

One less landfill was available in 2007, due to the closure of Settler's Hill RDF on Dec. 29, 2006.

Two more landfills in the region plan to close in 2008. CID RDF (Calumet City/Chicago) is near closure. Congress Development Company, Hillside, was near closure on Jan. 1, 2008. The landfill took its last load of waste on Jan. 31, 2008, and will report no capacity on Jan. 1, 2009.

## Landfills: Waste Accepted 2007; Remaining Capacities Jan. 1, 2008

	Municipality	County	Waste Rec'd.		Capacity		Disp. Area Acres	Close Year
			Cu. Yds.	Rank <sup>1</sup>	Cu. Yds.	Rank <sup>2</sup>

<b>Totals</b>			<b>13,124,649</b>		<b>94,630,000</b>			

\* Four landfills accepted out-of-state waste from Indiana and Wisconsin during 2007 totaling 56,869 gate cubic yards, or only < 1 percent of the region's total.

<sup>1</sup> Standing among 46 landfills that accepted waste during 2007.

<sup>2</sup> Standing among 48 landfills that reported capacity as of Jan. 1, 2008.

<sup>3</sup> Remains open to accept special and hazardous wastes from special customers until at least 12-31-08.

<sup>4</sup> New operator is Allied Waste Transportation as of 6-27-07. The site ceased accepting waste as of Jan. 31, 2008.

## **Solid waste transfer stations are vital to Region Two**

Region Two is home to 74 of the state's 109 active transfer stations. Cook County has 52 (that figure includes 16 sites in the City of Chicago); Lake County has eight; Will County has six; Kane County has three; Kankakee and DuPage counties have two each; and McHenry County has one.

The region's transfer stations are noted in the fold-out map on page R2.0b, and in the table on pages R2.4 and R2.5. Some of Region Two's transfer stations handled more waste than the state's busiest landfills. Chicago Metro area transfer stations voluntarily reported more than 7.7 million tons of waste transferred. We know these sites are active because field staff inspect their operations regularly.

### **Chicago metro area transfer stations permitted to open: 2005, 2006 and 2007**

#### ***Two sites opened in late 2005***

Veolia ES Solid Waste Midwest LLC/Batavia Transfer Station opened on Dec. 15, 2005. Eco Materials/Waukegan LSW Transfer Station opened on Oct. 24, 2005. Robbins Recycling and Transfer although permitted to, did not open in 2005, due to business concerns.

#### ***One site opens in July 2006***

The opening day for Prairie Lakes Recycling and Transfer Facility, Matteson, was July 7, 2006. Robbins Recycling and Transfer did not open in 2006, due to business concerns.

#### ***Five sites open during 2007***

DK (LSW) Transfer Station re-located and was renamed Oak Development LLC in July 2007. Greenwood Transfer Facility, Maywood, opened on June 20, 2007. Recycling Systems Inc., Chicago, was permitted by Illinois EPA on Apr. 5, 2007. Robbins Recycling and Transfer actually opened during 2007. Waste Management/Bluff City Transfer Station, Elgin, began accepting waste on Jan. 8, 2007.

<sup>3</sup> New in 2007 (5)

**Transfer trucks are required to  
be tarped**

*At Calumet Transfer Station, 2040 E. 106th St., Chicago, loads leaving the facility require tarps to be placed over the waste to prevent blowing litter while being transported to its final disposal destination. Tarps are also needed after the trucks empty at the landfill to prevent residual litter from being blown onto the highway on the return trip.*

Transfer Stations showing zero were active and accepted some amount of waste in 2007

**The majority (52.4%) of the State's landscape waste is composted in Region 2**

The tonnage accepted by compost sites in Chicago Metropolitan Region, 210,076 tons, is equivalent to 52.4 percent of total landscape waste composted in the State at all permitted compost facilities.

Six of the Region's compost sites show up in the top ten ranking of all of the State's compost facilities. Thelen Sand and Gravel #1, Antioch, was first; Harbor View Compost Facility, Chicago, was fourth; Green Organics Inc., Bristol, was fifth; Land & Lakes/Willow Ranch, Romeoville, was seventh; Christiansen Farms, Peotone, was eighth and Joyce Farms Recycling Inc., Essex, was ninth.

*There is order in the chaos that is waste management. These long windrows of useful compost made from unwanted landscape waste are located at Thelen Sand & Gravel #1 Compost Facility, Antioch.*

## Recycling rates range from 11.1 to 55.4 percent

The Agency does not regulate recycling; however, it does survey recycling coordinators statewide. Coordinators in Region Two reported recycling rates ranging from 11.1 to 55.4 percent, giving the region an average recycling rate of 42.5 percent.

Seven counties (Grundy, Kane, Kankakee, Kendall, Lake, McHenry and Will) have passed ordinances in support of recycling in residential and/or commercial sectors. In Cook County: Chicago and West Cook County Solid Waste Agency have passed similar ordinances in support of recycling.

Recycling rates are high here, in part, because of accessibility of Chicago markets for recyclable materials and because Chicago is an international business center. The Chicago Board of Trade considers recyclables to be commodities.

Eight of 13 recycling coordinators (61 percent) reported data for 2007. ♦

Municipal Waste Recycled						
County	Estimated Population	Waste Generated Tons		Waste Recycled Tons		Percent

## CID Recycling and Disposal Facility

<b>County</b>	Cook
<b>Municipality</b>	Calumet City
<b>Location</b>	138th St. and I-94
<b>Location ☎</b>	773-646-3099
<b>Hours of operation</b>	Mon.-Fri.: 6:30 a.m. - 3 p.m.
<b>Waste accepted</b>	#3: Nonhazardous special, inert; #4*: nonhazardous special (non-putrescible), hazardous, inert
<b>Tipping fee for customers</b>	Varies based on waste type & disposal location on-site
<b>Owner</b>	Waste Management of Illinois Inc.**
<b>Operator</b>	Waste Management of Illinois Inc.**

\*Area #4 holds permit to accept hazardous waste.

### Facility Facts

<b>Identification number</b>	0310390001
<b>Design capacity, cu.yds.</b>	Unknown
<b>Total permitted landfill area, acres</b>	#3: 175 and #4: 115
<b>Permitted disposal area, acres</b>	#3: 173 and #4: 29
<b>Highest permitted elevation, feet (msl)</b>	#3: 746 and #4: 629
<b>Leachate monitoring stations</b>	#3: 13 and #4: 12
<b>Groundwater monitoring wells</b>	#3: 32 and #4: 19
<b>Methane collection system</b>	Gas-to-Energy #3 and None #4
<b>Years remaining, estimated by landfill</b>	#3: 0 and #4: 1
<b>Date/year to open -- Date/year to close</b>	#3: 12-31-67 - 11-17-2007 and #4: 1974 - 2008*

\*Area #3 is closed to general MSW receipts, however nonhazardous special waste soils will continue to be brought in to facilitate re-grading of settled areas. Final closure is expected 4-1-08. Area #4 will continue to receive non-putrescible hazardous/non-hazardous wastes throughout 2008. Area #4 is anticipated to be filled and covered by the end of 2008. Area #3 closed in 2007. Area #4 closure postponed until 2008.

### Waste Received: 2005, 2006, 2007
