

Provisions for Livestock Waste Applications

Provision A :

A residence not part of the facility is located within ¼ mile of this application field. A provision that livestock waste applied shall be injected or incorporated on the day of application.

LMFA Section 900.803 o)

Provision B :

Livestock waste may not be applied within 200 feet of surface water unless the water is upgrade or there is adequate diking and waste will not be applied within 150 feet of potable water supply wells.

LMFA Section 900.803 p)

Provision C :

Provision that livestock waste may not be applied in a 10-year flood plain unless the injection or incorporation method of application is used.

LMFA Section 900.803 q)

Provision D :

Provision that livestock waste may not be applied in waterways.

LMFA Section 900.803 r)

Provision E :

A provision that if waste is spread on frozen or snow covered land, the application will be limited to land areas on which:

1. Land slopes are 5% or less; or
2. Adequate erosion control practices exist

LMFA Section 900.803 s)

Provision F :

A provision that livestock waste may not be applied during rainfall or to saturated soils and that conservative waste loading rates will be used in the case of a high water table or shallow earth cover to fractured bedrock.

LMFA Section 900.803 u)

LMFA 900.803k)
