

**Birchen Farms**  
**Stephenson County, IL**

**Comprehensive Nutrient**  
**Management Plan**

**Table of Contents**

1	Producer Information
2	Notes to Reviewers
3	Warranty of Technical Services Provided
4	Maps of fields & farm
5	Construction Drawings
6	Site Description
7	Waste Volume Calculations
8	Emergency Action Plan
9	Farm Nutrient Production
10	Operation & Maintenance
11	Safety Recommendations
12	Odor & Pathogen Management
13	Sampling Procedures
14	Future Wells
15	Land Treatment
16	Nutrient Management Planning
17	Storm Water Management Plan
18	Manure Application Considerations
19	Recommended Application Rates
20	Manure Application & Storage Summaries
21	Supplemental Nutrients, P & K Levels
22	Value of Manure
23	Field Inventory & Yield Info
24	FSA Maps
25	Soil Analysis
26	Manure Analysis Records
27	Manure Easements
28	Individual Fields
29	Individual Fields
30	Planned vs. Actual Manure Application Sheets
31	Recordkeeping Forms

## **Outline of CNMP Document**

<b>Section 1</b>	Producer Information
<b>Section 2</b>	Notes to Reviewers
<b>Section 3</b>	Warranty of Technical Services Provided
<b>Section 4</b>	Maps of fields and farm
<b>Section 5</b>	Construction Drawings
<b>Section 6</b>	Description of the site, facility pictures, site facility layout, and soils info
<b>Section 7</b>	Calculations including facility and storage inventories & waste production
<b>Section 8</b>	Emergency Action Plan
<b>Section 9</b>	Whole Farm Nutrient calculations
<b>Section 10</b>	Facility Operation & Maintenance Plans
<b>Section 11</b>	Facility Safety Recommendations
<b>Section 12</b>	Odor & Pathogen Management
<b>Section 13</b>	Sampling procedures for soil and manure testing
<b>Section 14</b>	Future Wells
<b>Section 15</b>	Land Treatment Practices
<b>Section 16</b>	Nutrient Management Plan description and P & N risk assessments
<b>Section 17</b>	Storm Water Management Plan
<b>Section 18</b>	Manure Application Considerations
<b>Section 19</b>	Recommended Manure Application Rates “Red Cheat Sheet”
<b>Section 20</b>	Manure Application & Storage Summaries
<b>Section 21</b>	Supplemental Nutrients Needed Projected Soil P & K levels – time to reach 300 lbs/acre
<b>Section 22</b>	Value of manure vs. commercial fertilizer
<b>Section 23</b>	Field inventory & yield info Expected crop rotation & yields
<b>Section 24</b>	FSA Maps
<b>Section 25</b>	Soil Analysis
<b>Section 26</b>	Manure Analysis Records
<b>Section 27</b>	Manure Easements
<b>Section 28-29</b>	Individual field information Includes maps with application setbacks, soil test P & K values, crop rotation, expected yields, predominant soil type
<b>Section 30</b>	Planned vs. Actual Manure Applications, “tractor cab sheets”
<b>Section 31</b>	Recordkeeping Sheets– keep on file for 5 years Producer checklist Manure application information, including weather conditions Manure transfers off-site, Farm crop records, Mortality records, CNMP reviews, Facility inspections, Application equipment calibration

***This CNMP was developed using estimated manure production. Estimates and actual numbers may vary based on climate, animal inventories, etc.***
