

Construction Authorization

The facility is a 120 acre limestone quarry designated as the VCNA Prairie Aggregates Illinois, Inc., Lisbon Yard 6107, located in Section 33, T35N, R7E, of the 3rd P.M. in Kendall County, Illinois near Lisbon. Quarry operations include the removal of overburden for use in reclamation and the drilling, blasting, excavation, crushing, washing, screening, and stockpiling of limestone aggregate. Mining excavation shall not be conducted within the minimum setback zones (200 feet) of potable water supply wells pursuant to Section 14.2 of the Illinois Environmental Protection Act. The operations result in the average discharge of 7.2 MGD of stormwater and pit pumpage from Outfall 001 to Valley Run Creek.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
