

Special Conditions**Construction Authorization**

The facility is an 4010 acre existing limestone quarry designated as the Hansen Material Services – Fairmont Quarry (Yard 671), located in Sections 6, 7, 8, 9, 16, 17, 18, 20, and 21, T18N, R13W of the 3rd P.M. and Sections 11, 12, and 13, T18N, R14W of the 3rd P.M. in Vermillion County near Fairmont. Operations include the drilling, blasting, excavation, crushing, screening, and stockpiling of limestone aggregate. Surface runoff is directed to quarry ponds. Operations result in the discharge of 0.86 MGD from Outfall 001 to Jordan Creek, 0.72 MGD from Outfall 002 to Baum Creek, 0.094 MGD from Outfall 003 to Jordan Creek, 0.86 MGD from Outfall 004 to Salt Fork Vermillion River, and 0.86 MGD from Outfall 005 to Olive Branch of surface runoff, groundwater seepage, and pit pumpage/dewatering.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
