

Special Conditions**Construction Authorization**

The facility is an existing, approximately 320 acre limestone quarry, designated as Lafarge North America, Hardin County No. 1, located in Sections 1 and 12, Township 12S, Range 9E and Section 6, Township 12S, Range 10E of the 3rd P.M. in Hardin County, Illinois near Cave-in-Rock. Mining operations include site abandonment activities such as stockpile removal and site security improvements. There will be no process water generated on site or pit dewatering discharges. Stormwater runoff from the stone quarry areas will remain onsite or will be subject to Storm Water Pollution Prevention Plan requirements prior to discharge.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
