

**Special Conditions****Construction Authorization**

The facility is a new, approximately 21 acre sand processing facility, designated as Quality Sand Products, LLC. , Quality Sand Products Peru Facility, located in Section 32, Township 34N, Range 1E of the 3rd P.M. in LaSalle County, Illinois near Peru. Mining operations include the drying and processing of silica deposits. Stormwater is routed to an onsite settling pond prior to discharge. Facility operations will result in an intermittent discharge of process wastewater from sedimentation ponds through outfall 001 to an unnamed ephemeral stream which is tributary to the Little Vermillion River.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
