

**Special Conditions**

**Construction Authorization**

The facility is an approximately 25 acre sand and gravel quarry designated as the Bluff City Materials, Inc. Raymond Street Mine located in Section 25, T41N, R8E of the 3<sup>rd</sup> P.M. in Kane County, Illinois near South Elgin. Pit operations include the removal and stockpiling of overburden for use in site reclamation, excavation, crushing, screening, washing and stockpiling of sand and gravel aggregate. Operations result in the average discharge of 0.82 MGD (maximum 3.7 MGD) of pit pumpage from outfall 001 to an unnamed tributary of Poplar Creek.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practices shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
