

Special Conditions**Construction Authorization**

The facility is an existing, approximately 367 acre sand and gravel quarry, designated as Lola Quarry, Inc, Pit 2, located in Section Section 36, Township 4-North, Range 3-West of the 3rd P.M. in Bond and Clinton Counties, Illinois near Keyesport. Mining operations include the pit dredging, screening, and stockpiling of sand and gravel deposits. An asphalt plant is also operated on-site. Mine operations result in the discharge of stormwater runoff and groundwater from settling pond overflow to outfall 001 at an average discharge rate of 0.71 MGD to an unnamed tributary of Beaver Creek and the discharge of stormwater and groundwater from pit dewatering pumps to outfall 002 at an average discharge rate of 0.70 MGD to an unnamed tributary of Beaver Creek.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
