

Special Conditions**Construction Authorization**

Authorization is hereby granted to the above designee to construct the mine and mine refuse area described as follows:

The facility is an existing, approximately 380 acre limestone quarry designated as VCNA Prairie LLC – Manteno Yard 95 located in Sections 20 and 29, T32N, R12E of the 3rd P.M. in Kankakee County, Illinois near Manteno. Quarry operations include the excavation, crushing, screening and stockpiling of limestone aggregate. A concrete plant is also located on-site. Mine excavation shall not be conducted within the minimum setback zones (200 feet) of potable water supplies pursuant to Section 14.2 of the Illinois Environmental Protection Act. Operations result in the discharge of 0.86 MGD average flow of surface runoff, process wash water, and pit pumpage from Outfall 001 to an unnamed tributary of the South Branch of Rock Creek.

The abandonment plan submitted on October 29, 2013 shall be executed and completed in accordance with Rule 405.109 of Subtitle D: Mine Related Water Pollution.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practices shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.
- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
