

Special Conditions

Construction Authorization

The facility is an existing, approximately 126.32 acre limestone quarry, located in Section 27, T9N, R12W, 3rd P.M., in Greene County, 4 miles west of Kane, IL, designated as the Twin Rivers Stone, LLC — Kane Quarry. Mining operations include the blasting, excavation, crushing, screening and stockpiling of limestone aggregate. Operations will result in the discharge of stormwater runoff and pit pumpage at a maximum rate of 0.50 MGD at outfall 001 to Wine Branch Creek tributary to Macoupin Creek. Mining excavation operations shall be conducted outside the minimum setback zone of potable wells pursuant to Section 14.2 of the Illinois Environmental Protection Act.

Storm Water Pollution Prevention Plan: Authorization is hereby granted to construct treatment works and related equipment that may be required by the Storm Water Pollution Prevention Plan developed pursuant to this permit. Discharging sedimentation ponds are not covered under the Storm Water Pollution Prevention Plan authorization, unless they discharge to a non-coal outfall specifically identified in a construction authorization under this permit.

This Authorization is issued subject to the following condition(s).

- a. If any statement or representation is found to be incorrect, this authorization may be revoked and the permittee thereupon waives all rights thereunder.
- b. Plans and specifications of all treatment equipment being included as a part of the storm water management practice shall be included in the SWPPP.
- c. Any modification of or deviation from the plans and specifications in the initial SWPPP requires amendment of the SWPPP.

- d. Construction activities which result from treatment equipment installation, including clearing, grading and excavation activities which result in the disturbance of land area must meet the conditions of this permit.
